REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The prior art of record fail to teach or suggest a method for on-board programming and/or In-system configuration of a flash memory on a circuit board, comprising: controlling inputs of the flash memory with an ASIC mounted on the circuit board via individual memory cells of a Boundary Scan register for activation or deactivation of a write operation, wherein an architecture description of the ASIC and the flash memory to be programmed and the data format of the program and configuration data are provided in a file, the printed circuit board is configured to be controlled via an interface for input or output of standard bus signals and for input of the control signals of the ASIC, and the data of the network list or the circuit diagram which define the configuration of the interface between the flash memory to be programmed and the ASIC is provided in additional files (claim 1); a parallel interface for on-board programming and In-system configuration having series connection of a number of memory cells which are part of the boundary scan register (claim 6) or a series connection of memory cells of a data register (claim 7); a memory cell of a boundary scan register for on board programming comprising an input multiplexer, a scan or capture flip flop, an update flip flop and an output multiplexer (claims 8 and 9).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
